BOXBAY is a container-based storing and handling solution that is all set to revolutionise the storage system at ports. With the use of a disruptive technology – High Bay Systems (HBS), BOXBAY can significantly improve operations at container terminals. Containers can be stored eleven stories high, offering the same capacity as traditional terminals but with one third of the surface area. Scalable to any location and fully automated with direct access to each container, BOXBAY eliminates unpaid and unproductive reshuffling. It also brings significant gains in handling speed, energy efficiency and safety.

BOXBAY is an international joint venture launched by DP World and SMS Group.

**SMARTER LOGISTICS**

DP World welcomes Topaz Energy and Marine to the family.

In July we acquired Topaz Energy and Marine, a leading international critical logistics and solutions provider to the global energy industry. The company operates a modern, versatile fleet of 117 vessels, predominantly in the Caspian Sea, MENA, and West Africa regions.

In recent years, we have been investing selectively in the marine logistics sector in companies with high revenue visibility, consistent track record and strong customer relationships. Much like DP World, Topaz has evolved its business, offering customers a range of logistics solutions and outperforming the industry.

Topaz’s operations have now been integrated into our P&O Maritime Logistics business, which maintains over 300 vessels globally.
